

# Roots & Shoots

The Cycle of Life

Solstice

*Tender green stems amongst autumn's earthy hues  
tiny leaves lift their heads towards the sun  
fragrant shoots,  
roots seeking nourishment  
extracting essence from Mother Earth.*

*Flowers painted with the last palette of the season  
the countryside, abuzz with bees, harvesting  
bountiful honeycombs, dripping with sweet nectar,  
filling nature's larder with ripe season pickings  
for the long, cold winter to come.*

Equinox

*The days become cooler,  
as Nature dress in her ochre cloak  
and sheds her autumn leaves,  
carpeting her secret places  
wither and nourish the soil.*

*The essence of citrus permeates the cool crisp air  
pregnant golden fruit,  
bearing the seeds of tomorrow's promise.*

*The winds blowing from the cold northern  
fjords of ice and snow, scatter leaves  
over the frosty, dormant soil, moulding a warm bed,  
nurturing Mother Nature's covenant  
of bountiful provision for the future...  
and the next season's shoots.*

# Jewels of the Sea

Oyster

Champagne

Fennel

The sea is a vast source of life, not only filled with beautiful creatures but also mystery and treasures. With this dish I was inspired by one of those treasures - "The Oyster Pearl".

The birth of a pearl is truly a miraculous event. Unlike gemstones or precious metals that must be mined from the earth, live oysters far below the surface of the sea, grow pearls. Gemstones must be cut and polished to bring out their beauty. However, pearls need no such treatment to reveal their magnificence. They are born from oysters complete - with a shimmering iridescence, lustre and soft inner glow unlike any other gem on earth.

To create this dish I have combined an oyster macerated in champagne and a light apple jelly topped with slightly acidic champagne foam. The treasure of this dish is our own home grown pearl set in a spoon of salty Sturgeon d'Aquitaine Caviar.

The Wild Peacock Farm, located in the Stellenbosch region was established and founded by Sue Baker in 1991. They supply delicacies from around the world and have a dedication to service and quality of the highest standards. These oyster experts are well known for their fresh oysters farmed and produced in Saldanha Bay. With over 20 years of experience in supplying quality products the Baker family strive to source and locate the very best of exotic products local and overseas markets have to offer.

A solid gold hue, showing classic Chenin fruit with a mineral seam, with tinges of volcanic rock and smoke. The palate shows intense citrus and peach tones, mixed with a creamy mousse and bright acidity.

The Nasturtium leaf is rich in Vit.C and a natural antibiotic. Eating a couple of the peppery leaves at the onset of a cold can stop it dead in its tracks. The gentle antibiotic reaction makes it ideal as a natural medicine.

Worcester Cape

A pale straw colour with aromas of freshly baked bread crust and biscuits dominate the nose. Roasted almonds and walnuts are evident on the palate that is complimented with a balanced and dry finish.

# Bountiful Beetroot

Salt-Crusted Beetroot

Heirloom Salad

Mature Reserva Leonardi Italian Balsamic

I am fascinated by mythology and typically, my reading time will be taken up by studying the stories of old. It was here that I discovered that the Oracle of Delphi claimed that beetroot was second only in mystical potency to horseradish, and for the ancients it was worth its weight in silver. With the various health benefits that beetroot offers, one can see why. Beetroot contains betaine, a substance that relaxes the mind, and tryptophan (also found in chocolate), which contributes to an overall sense of well-being (and don't we all need that!).

Because of its natural sweet, earthy taste and ruby-red colour, beetroot was one of my first choices of ingredients to feature on our "Roots and Shoots" menu.

The baby beetroots are grown by Merryn on her Aloe Dale Farm, close to where our restaurant is situated. Her enthusiasm lights up my kitchen every week when she delivers fresh bunches bursting with energy and flavour.

# Simply Shoots

Garden Velouté

Fava Bean Mousse

Pea Shoots

I have created this dish to be a true interpretation of the colour 'green'. The taste, smell and visual impressions are all reminiscent of the first vibrant and lush shoots that emerge from the soil of my herb garden as they lift their tiny and aromatic leaves toward the sun. These tiny leaves, so welcome amongst the browns of Autumn and early Winter, were the inspiration behind "Simply Shoots".

Most of the flavourful ingredients for this dish are organically grown at Kazi Farm, a small family owned and operated boutique farm situated in the Cradle of Humankind, close to Restaurant Mosaic. They have successfully and sustainably grown exceptional baby vegetables, herbs and salad greens for our kitchen for the past decade. After ten years, farmers Denzyl and Leoni, are still assisting us to delight our guests with only the finest and freshest of produce.

# Dancing Veils

Irish Scallop

Maritime Broth

Horseradish Root

Elegance and simplicity is something each chef strive for when creating that perfect dish, but what transforms the dish into something quite unforgettable is sometimes a bit of the exotic and theatrical. Here the sweetness of the seared scallops are complemented by the slight tartness of the horseradish and the entire dish comes to life with the addition of the pure flavours from the hot Bonito broth.

The Irish Scallops used in this dish is sourced by La Marina Foods, who is a proud member of SASSI and who focuses on providing us with not only the freshest, but also a selection of sustainable seafood on the market.

The Dancing Veils is one of my secrets, discovered during one of our visits to the far East.

# Honeycomb

St Nectaire

Sunflower Shoots

Prosopis Honey

Honey is considered as the nectar of life and it is said that it is the only natural food that a human can survive on without any other supplement required. It is fascinating to know that the nectar of 2 million flowers needs to be harvested by bees to make only 450g of honey, and that it took six honey bees their entire lives to produce the amount of honey that you will find on your plate.

“Honeycomb” is my ode to this rich and decadent natural nectar. For this dish I have sourced some rare Prosopis honey from Douglas Bee Farm situated in the remote Douglas region near the confluence of the Orange and Vaal rivers in the Northern Cape Province.

To compliment the natural sweetness of the Prosopis honey, I added sunflower shoots, exclusively and organically grown for Restaurant Mosaic by Anneke Griffioen - it has an enticing crunch, and just a hint of sunflower seed flavour, with an underlying nuttiness which is enhanced by the Saint-Nectaire Cheese.

The Saint-Nectaire cheese is made from cows milk, mainly Salers, that grazed on the volcanic pastures of the rolling hills of the Auvergne in France.

When it comes to exceptional quality fish, it can not be disputed that Halibut will be one of the first choices that come to mind, and the sustainably farmed Sterling White Halibut from the cold, clear, fjords of Ryfylke in Norway, has established an international reputation for being one of the best in the world.

To compliment the delicate taste of the Halibut, I have selected sweet fennel, with its distinctive liquorice character that is known for its vast healing properties as an anti-oxidant, anti-inflammatory and digestive aid.

Most of my sweet fennel I harvest from my own gardens, spread throughout The Francolin Conservancy. When the baby Njala's and Impala beat me to the freshest shoots, Vasili Betsakos is always ready to help me out.

Sweetbreads  
Panniyoor Pepper  
Cognac Cream

Inspired by a meal I had in one of the most beautiful and romantic Bistros in Paris, *Le Grand Café Capucines*, this dish captures the simple pleasures of classic French cuisine. The French are known for their exquisite food, which has long been the envy of the world. It's not just about the way their food is prepared, it's their passion and their philosophy behind the food that makes it so special.

The Angus Family, who ensures that we only use the best quality beef, has a longstanding reputation of being one of the top producers of free range beef, free from hormones, antibiotics and growth supplements.

Pepper was known as the "King of Spices", highly esteemed and good for trade, even being referred to as "Black Gold". This rare and extraordinary Panniyoor peppercorns from Kerala in India with their wood aromas, was the perfect match to pair with "Autumn Leaves".

# L'Oil Dorée

Free Range Confit Goose  
Pan Fried Goose Liver

Parsnip  
ClemenGold Purée

ClemenGold is not a widely known citrus. It originates from the small town of Afouer in the Atlas Mountains of Morocco. The complex flavours of sweetness on the palate and golden colour, makes it a magnificent additive. Citrus is not only good for the body, but also for the mind and spirit. In fact, the Moors believed that the scent of citrus is so powerful that it will lift your mood.

The aroma of ClemenGold is especially delightful and was my first choice with the cooler days of autumn and winter to accompany the rich flavours of slow braised confit goose with a slice of decadent and salty fried goose liver, served with creamy parsnip purée.

It was my night-time reading of Aesop's Fables that started me thinking about "The Golden Goose", but it was easier to find golden eggs than geese, to put on my menu! It was Helen Aaron that came to my rescue - she is the driving force behind "Ducks on the Go", a distribution company specialising in the sourcing and supplying of free range and organic reared ducks and geese.

many more...

Mosaic's cheese trolley offers a hand-picked seasonal selection of exceptional local and European cheeses, served with a variety of condiments and freshly baked Cranberry and Pear or Sour Cherry and Walnut breads to complement the cheese. We also have a selection of Wheat, Gluten, Lactose and Nut free breads available.

A few of the highlights on our cheese trolley to tempt your taste buds:

- **30 Month Old Charles Arnaud Grande Réserve Comté (AOC)** - Restaurant Mosaic is one of the few restaurants in the world to present this rare and exceptional quality Comté which takes 530 liters of cow's milk to produce one single Comté, weighing in at a hefty 35kg.
- **Époisses de Bourgogne (PDO)** - The Emperor Napoleon's favourite cheese, it has a striking but pleasant smell, strong flavour and is very creamy - it melts in your mouth.
- **Belnori Phantom Forest** - Fresh Chèvre with layers of vegetable ash, wrapped in Camembert. Norman and Rina Belcher at their Belnori Boutique Cheesery, in Bapsfontein, make this cheese with organic milk from their lovable Swiss Saanen goat herd. This soft cheese has no "goaty" flavour and is slightly nutty and was honoured as the champion cheese at the SA National Championships numerous times.
- **Dolcelatte Gorgonzola (PDO)** - Produced from combining the curds from the evening's milk with curds made from warm, fresh milk to encourage bacteria growth, creates the yellow interior full of greenish-blue striations. A creamy, buttery cheese, from the rolling hills of Piedmont in Italy.

Love Potion

I am frequently asked what to do for a romantic dinner. The answer is quite simple - ask the love of your life to help you stir something up in the kitchen...especially if you can secretly add a few drops of love potion... I have decided to allow you to play with your food and stir it up yourself.

My Recipe for Romance DIY cake consists of:

Ground Almond Flour  
55% Valhrona Chocolate  
\*Creamy Farm Butter (Passion Fruit Parfait)  
\*Sugar Cubes (Coconut Marshmallow)  
\*Fresh Organic Egg (Mango & Coconut)

Vanilla Confit Pear

Italian Dark Chocolate Gelato

I am sure every woman will concur that having a "Little Black Number" in their closet is essential. That one irresistible fashion item that you can't live without. It never lets you down and always makes you feel and look good...

Our "Little Black Number" consists of a sinfully decadent composition of layered Callebaut couverture chocolate mousse, ganache, salted caramel and a crunchy wafer served with Italian gelato.

Callebaut Chocolatiers hand select, roast and grind cocoa beans into their own secret and exclusive cocoa mass - the most important ingredient for chocolate couvertures. The beans are roasted in their shell to protect the most delicate aromas and to yield a more intense, more complex and deeper cocoa flavour.

As the finale of what we hope has been an unforgettable evening, we trust that our "Little Black Number" will create that lasting impression and fond memories that the real thing has evoked in your life.

## Still Water

Lauretana  
R42 / 750ml

From the Alpine environment of Biella Mountains. Springs are situated in surroundings devoid of any settlement. Therefore the area is completely unpolluted so that the groundwater tables, also for their depth, do not run any risks of pollution. Lauretana, in respect of such a perfect nature, has provided opportune technologies to preserve the water along all its course, from the spring until its bottling. The spring is located on the slopes of Mombarone at 1 050 m above sea level - and since it is a water of ice - it enjoys the greatest volumetric supply in summer and a more contained one in winter.

Acqua Panna  
R42 / 750ml

Acqua Panna Natural Spring Water, which dates back to the Romans, comes from the region of Tuscany and is the ideal still water for dining occasions. Legend has it that Romans built the only road from Northern to Southern Italy through Scarperia. This road went past the Acqua Panna spring, which provided deserved refreshments to weary travelers. In the 1500's, terra cotta pipes were discovered near the source. These pipes were used to transport the natural spring water to the noble Medici Family, the wealthiest, most powerful and influential family in Florence. The Medici's home, called Villa Panna, is located on the land surrounding the source. The cream-coloured villa provides the name for the brand, "Panna", which means "cream" in Italian. The lion's head found on the Acqua Panna logo was originally part of the fountain at Villa Panna.

S. Pellegrino  
R42 / 750ml

San Pellegrino mineral water has been produced from the same natural spring for over 600 years. In 1395, the town borders of San Pellegrino were drawn, marking the start of its water industry. Leonardo da Vinci visited the town in 1509 to sample and examine the town's "miraculous" water, later writing a treatise on the subject. The water originates from a layer of rock 400 metres (1,300 ft) below the surface, where it is mineralised from contact with limestone and volcanic rocks, giving the water its distinctive taste. It emerges from three deep springs at a temperature of about 22°C (72°F). The iconic green bottle was designed in 1899, and was originally used to bottle wine. The red star was considered a symbol of export products of particular excellence and quality. The bottle's label features the Art Nouveau casino building of San Pellegrino Terme against the Alps skyline.

## The Orient's Crystal Clear Spring Water No Charge

The Magaliesberg, one of the oldest ranges in the world, separates the Highveld Grasslands to the south and the Bushveld Savannah to the north. These mountains' creation began almost 2 300 million years ago when Africa, what was then a large landmass called Gondwanaland and most of what is now known as Gauteng, was submerged under shallow water. Several layers of sedimentary rock, dolomite and limestone settled on this seabed. Over millions of years, once the rock had solidified, water seeped in and dissolved parts of the dolomite leaving huge caves, some of which became under ground reservoirs, and these are the source of many of the streams that flow through the region. This is also the origin of "The Orient's Crystal Clear Spring Water", especially to spoil our guests with the purest of pure water.
